INSTRUMENT & TRAY TRACKING

Tray Identification Tags

Resin bonded tags designed for tray identification. Tags may be used with bar code labels or hand written notes. All instruments remain with the sterilization basket throughout the collection, decontamination and sterilization process. X-ray detectable.

INSTRUMENT & TRAY TRACKING

Instrument Self Looping Labels

These labels facilitate specific markings and remarks for sterile or contaminated instrument trays. The label is suitable for sterilization and are resistant to washing and disinfection and thus can stay with a tray of instruments all the way through the decontamination process. Packaged 500 per box. Need a special design? Call for a custom label quote.

INTERCHANGEABLE & MAGNA TAGS

Interchangeable Tags

Constructed from stainless steel the heat resistant insert holder is manufactured with a durable clip that attaches to various medical trays and mesh wire baskets. The holder is accompanied by a variety of interchangeable color insert tags for easy identification. Made of resilient Polyethersulfone, the interchangeable insert tags are heat resistant up to 275 °F.

Code No.	Color
01498	Stainless Steel Clip-on Tag Holder 2.4" x 1.6"

Transportation & Quick Turnover Labels

Designed for compliance with OSHA standard CFR 1910.1030 the Transportation Identification Tag is 3.125" x 5.125" with one perforated tab, a green top tab with "CLEAN" in black text, a fluorescent orange/red bottom tab with "DIRTY" in black text, and the removable OSHA approved "Biohazard Label" adhesive backing. The Transportation Identification Tag is produced precisely for transporting materials considered a biohazard, while acting as an essential communication tool in the process.

Code No.	Description
AV-52481	Transportation Label
AV-52482	Transportation Label w/o checklist
HM-52489	Quick Turnover Label

7 Day, 12 Day and 1 Hour Indicator

HTK-7D

Designed as a visual reminder for healthcare workers, the 7 Day & 12 Day Indicator Hangtime Label features a elapsed time indicator adhered to a 8.5 x 2.5 inch self-looping label. To activate the indicator simply press the blister on the strip, and upon activation a safe dye migrates along a seven or twelve day display run-out window, which shows elapsed time. No preconditioning is required, there are no moving parts, and no power source is required.

HTK-12D

Operating similar to the 7 & 12 Day Labels, the yellow 1 Hour indicator will elapse in hour time to represent the amount of time after bedside cleaning that reprocessing must begin.

HTK-1H

Time Out Sign

Time out! A "Surgical Pause" is the universal protocol for preventing wrong site, wrong procedure, and wrong person surgery. Healthmark's new stainless steel "Time Out" signs serve as a perfect reminder. The 304 grade stainless is materially compatible with steam, EO & gas-plasma sterilization.

Code No.	Description
SS-TO	Stainless Steel Time Out Sign 5" x 1"

Washer Rack Labels

These labels are used to identify and track washer racks through the washing cycles when being tested with the TOSI™ and other ProFormance™ cleaning verification products. Each label has a unique number that will help determine washer racks that are repeatedly not performing to cleaning standards so the issue can be properly identified. They come in the size 2" x 0.625".

Code No	Description	Pkg
WRL-001	Anodized Aluminum, adhesive label	10

LABEL GUN SYSTEM

Hand-held Labeling Systems

Healthmark's Hand-held Labeling System has been designed specifically with Central Sterile in mind for the labeling of any items that you need to be autoclaved - from sterile linen packs to instrument trays, and peel pouches. It also has great versatility for labeling in other hospital departments such as dietary and pharmacy.

This system gives you the flexibility to print two lines of information with up to eight characters per line. The available characters include two gregorian dates for printing expiration and autoclave dating with additional bands for load and sterilizer numbers.

Gas-Plasma compatible labels are available. "S" at end of code number is the Gas-Plasma Compatible label.

NEW! Our newest premium label gun prints two-part labels designed to allow the sterilization record label to go with the patient record after use. It also allows you to print more characters on each label.

PPE DECALS

PPE Decals

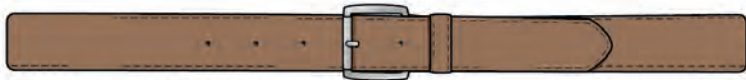

What are they?

Style your Personal Protection Equipment with PPE Decals! These fun designs secure by adhesive directly to your PPE that you are wearing. Whether it is to bring attention to an important cause or showing your pride for your department, these decals are unique and stand out in the crowd. They are very easy to apply, just unpeel and the adhesive back sticks on to the material you are wearing.

Style your PPE with the “Heart of the Hospital” Decals. These stylish decals can be placed directly on the PPE you are already wearing during your shifts.

Pink Ribbon Decals are also available. They are a great way to show support and raise awareness during breast cancer awareness month and Mother’s Day. They soon will be available in other colors.

PPE Decals also come in a variety of styles that can be worn at anytime for fun in the department.

MESSAGE LABELS

Clean Labels

Effective communication among healthcare professionals is an essential part of success for providing superior care and achieving patient satisfaction, which is why we've created specialty labels. Manufactured to convey key information to healthcare professionals, the clean label is intended to conceal and cover the bio symbol on SST systems when transporting clean medical instruments.

Code No.	Description
CLN-4X4	Clean Label

Multi-purpose Labels

Properly labeling medical equipment can be challenging. The Multi-Purpose Equipment Label was developed as a way to ensure consistency and identify whether medical equipment designated for patient use is either clean, in-use or dirty. The 2" x 3" label has an easy to use pull tab style design with an adhesive backing that doesn't leave residue behind and can be applied to numerous medical devices. The brightly colored label provides high visibility to healthcare professionals, allowing individuals to correctly confirm the status of equipment.

Code No.	Description
HM-CID-613	Multipurpose Equipment Label

High Level Disinfected Label

Designed for containers that hold high-level disinfected or contaminated scopes, the High Level Disinfected Label is 2" x 3" that has a green top tab with "CLEAN" and "HIGH LEVEL DISINFECTED" in black text, as well as a removable self-adhesive orange bottom tab with "BIOHAZARD" in black text that provides space to record the time the scope was pre-cleaned. By labeling containers as "CLEAN" or "BIOHAZARD", the High Level Disinfected Label serves as a communication tool that provides information to healthcare professionals working throughout different departments. The High Level Disinfected Label is available for purchase on a roll of 250.

Code No.	Description
HM-52483-HLD	High Level Disinfected Lb

- Step 3 - Talk to a Customer Service Representative for a custom quote for your wall graphic

Code No.	Description
WG-PPESEC	PPE Security Sign
WG-WAI	Smiley Face Decontam Reminder
WG-PPEPHARM	PPE Hazardous Drugs

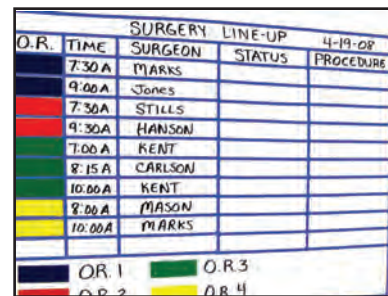

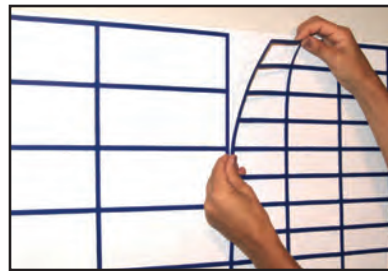

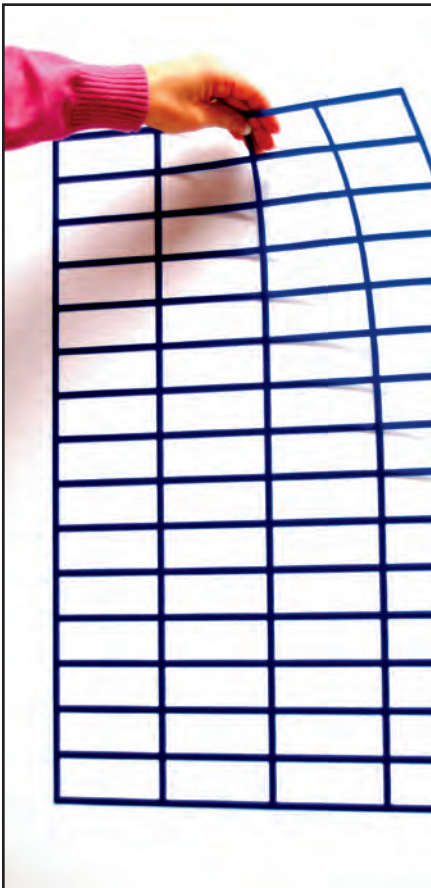

TRACE MARKS & INSTA GRIDS

TRACE MARKS

Create a place for everything and put everything in its place. Trace Marks are the quick, easy and professional looking method for identifying where instruments and other items should be replaced after use. Missing items can also be quickly recognized and found. Use in carts, on peg boards, in maintenance areas, work stations or as part of a quality inspection process. Trace Marks are incredibly easy to use. Just trace out the instrument, cut-out your pattern and the adhere in place. Available in six different colors, which you can use to color code applications.

Code No.	Color	Width	Length
403	Black	12.25	180.00
404	White	12.25	180.00
405	Green	12.25	180.00
406	Red	12.25	180.00
407	Orange	12.25	180.00
408	Blue	12.25	180.00

INSTA GRIDS

Insta Grids are grids that are ready to use in seconds! They are available for use on a magnetic board or peel & stick version for use on any whiteboard. Just stick on the board creating an instant grid. Each square is perfectly shaped and presents a professional appearance. Insta Grids can be customized to any application including creating larger rectangles by cutting grid cells to size. Connect grids together to add columns and rows as needed. Insta Grids are available in six colors. Consider ordering different colors to color code your data. One kit contains six 15" x 23" grid panels to complete a 4' x 4' grid board.

Magnetic Insta Grids

Code No.	Color	Width	Height
850	Red	15.33	23.00
851	Orange	15.33	23.00
852	Yellow	15.33	23.00
853	Green	15.33	23.00
854	Blue	15.33	23.00
855	Black	15.33	23.00
